Re: Propane Gas Bid

Dear Bob,

The following is Eastern Propane Gas, Inc.'s ("Eastern") proposal to supply propane gas service to Carroll County Farm at the bulk storage facility.

Based upon Carroll County agreement to purchase propane gas exclusively from Eastern for the term of this contract, Eastern agrees to:

1. Supply 1-30,000 wg. Propane storage tank and appurtenances (existing).
2. Periodically check vaporizer and related equipment for proper operation.
3. Pricing Fixed (as of today - subject to changes in the market):
  - a. One year – October 1, 2021 through September 30, 2022 -- \$1.54
  - b. Two Years - October 1, 2022 through September 30, 2023 --\$1.34

We will continue servicing vaporizers(s), regulators, meters, piping, valves, etc. on as needed basis at our then current labor and material rates.

If you agree to and accept the terms of this proposal, please indicate the same by signing below and returning an executed copy to me. If you should have any further questions, please, don't hesitate to call.

Sincerely,

Bob Lefebvre  
Vice President Supply  
Eastern Propane Gas, Inc.
