

DPW HIGHLIGHT REPORT

By Will DeWitte

March 31, 2021

- Moving slowly into spring cleaning tasks
- Fixing lawns, power brooming, reseeding as it gets warmer
- Working on fixing a 2520 tractor, main hydro pump rebuild
- Working on rebuilding old hay wagon that has been rotting away
- Getting winter equipment ready to be put away
- Summer equipment will be coming out soon
- Ongoing zoom classes for water license renewal this year
- Looking at spring fertilizer options for the fields, hopefully get something down once the ground dries out
- RFP's for the commissioners coming soon, grease pumping and water study
- We have a knife valve out in the pit that needs either replacing or rebuilding soon, 6-8"
- Water meter readings, have some problem meters to look at
- Quarterly water reports to go to the state
- Maintaining water and wastewater systems
- Emergency plan update with state for water system on going
- Looking to do updates on the GIS system this spring, ongoing process
