

DPW HIGHLIGHT REPORT
By Will DeWitte
September 9, 2021

- Trying to finish up haying for the year, worst weather year ever
- \$12,019 hay, \$378 wood, \$4,191 scrap, \$16,588 total
- Lawn mowing weekly, it just doesn't stop growing!
- A lot of research on water department needs
- Met with Underwood Engineers
- Before study is done, worst case scenario \$3M
- Source protection committee working along
- Third quarter water testing taking place
- Meter readings coming up soon
- Fire hydrant flushing coming up
- Classes coming up for continuing education credits for licenses
- Snow! Plow truck/Sander? What direction are we going in?
