Comments:

Today I visited the Carroll County - County Attorney's office due to a complaint received regarding employees being housed in a records room/vault storage room, and the ability of the employees to safely vacate the space in the event of a fire or other emergency. After inspecting the space and speaking with county attorney Michaela Andruzzi and Director of HR Chris Heroux, it was determined that no violation of NH labor law exists in the vault storage room/records room at this time.
