

DPW HIGHLIGHT REPORT
By Will DeWitte
January 20, 2021

- We've had a couple big storms but not much lately
- Lots of maintenance/cleaning taking place on equipment
- Fixing and replacing parts on equipment, (snow blowers, t. spreader)
- Salt and ice melt deliveries
- Burning of brush piles out back
- Cleaning up down trees on roadways outback
- Water meter reading earlier this month
- Responded to a small water leak
- Heater thermostat replacement in grinder building
- Maintaining water and wastewater systems
- Lots of reports that go to the state going on this month, year end
- Got some training on new GIS system for the water system
- 4th quarter testing for water to include PFAS testing, ground water also
- Hay is all sold and delivered for the year
